-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Remarks***

Applicant is also requested to provide all the prior art as indicated in the form PTO-1449 filed on July 20, 2001 because they are not received.

***Objected Informalities***

The disclosure is objected to because of the following informalities:

**In The Claims**

Claim 19, line 7, "downstream of said" should be – downstream of said object --.  
Appropriate correction is required.

***Rejection Under 35 U.S.C. 112, First Paragraph***

Claims 1-3 and 5-28 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification is silent for reciting the limitation "an imaging device which detects an image created by photons generated in the delivery of the electron treatment beam for verifying an electron treatment field created by an electron treatment beam" as recited in claims 1-3 and 5-28. Therefore, the Examiner don't understand what is the source that produces a treatment beam having electrons and photons? And How is the photons detected to verify an electron treatment field, since the photons and electrons have different characteristics?

Additional explanations are needed if applicant insists on including these features in claims 1-3 and 5-28 without the insertion of new matter.

Clarification without the introduction of new matter is required.

***Rejection Under 35 U.S.C. 102(b)***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 and 5-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Ueda et al. (5,396,889) (See the reasons as indicated in the previous office action dated 10/10/2003).

This rejection is applied as the best understood by the meaning of 112, first paragraph above.

Applicant's arguments filed on 01-13-2004 have been fully considered but they are not persuasive in view of the foregoing reasons.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2881

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kiet T. Nguyen whose telephone number is 571-272-2479. The examiner can normally be reached on Monday-Friday from 8.00 AM to 6.00 PM.
